Company Information

Palladium is a global leader in the design, development and delivery of Positive Impact — the intentional creation of enduring social and economic value. We work with corporations, governments, foundations, investors, communities and civil society to formulate strategies and implement solutions that generate lasting social, environmental and financial benefits.

Project Background

The USAID-funded CATALYZE Program, a \$250 million 8-year program, is designed to mobilize \$2 billion in private capital, especially for underfinanced sectors, including women. As part of the Women's Global Development and Prosperity (W-GDP) Resilience buy-in, CATALYZE will be providing technical assistance to women-led micro, small, and medium enterprises (W-MSMEs) in order to build enterprise resilience and facilitate growth. To this end, W-GDP Resilience is collaborating with the Development Finance Corporation (DFC) to pilot a number of supply-side interventions in the "incentives toolkit" to build capacity in DFC financial institution (FI) investees to better serve women clients. These will provide additional financing to women clients; gender mainstream existing products and services through tailored technical assistance to Bank teams; and co-create incentives using variable interest-rate regimes.

Purpose

To support this work, CATALYZE: W-GDP is seeking a consultant to:

- i.) Conduct a rapid gender assessment to understand specific supply-side constraints;
- ii.) Design and roll-out a Gender Lens Finance Strategy (GLFS); and
- iii.) Integrate the Financial Incentives Program (FIP) as an add-on to the GLFS.

CATALYZE W-GDP Resilience, DFC: Local Gender Lens Finance Consultant—El Salvador Scope of Work

Component 1: Rapid Gender Assessment

In collaboration with the regional consultant, the local consultant will conduct a rapid assessment of BAC-El Salvador to understand specific supply-side constraints preventing women-led SMEs (W-SMEs) from accessing finance. The goal of this analysis is to understand current practices, staff strengths, and capacity gaps—as well as demand-side constraints—as perceived by these FIs that prevent W-SMEs from accessing finance.

Component 2: Gender Lens Finance Strategy (GLFS)

Building on regional best-practice experience (in collaboration with the regional consultant), the local consultant will design a GLFS that will detail changes in policy, procedures, training, products, services and marketing approaches to help the bank client to increase the number of loans to W-SMEs.

Component 3: Roll-out of GLFS

Building on regional best-practice experience and in collaboration with the regional consultant; the local consultant will be the strategy roll-out facilitator, liaising with the bank and coordinating technical assistance from other donors (including IDB-Invest). This work will take place over a period of twelve (12) months, including one (1) scheduled check in per week with the Palladium activity management unit (AMU) via phone.

Component 4: Financial Incentives Program (FIP)

In collaboration with the Palladium AMU and the regional consultant; the local consultant will integrate the FIP as an add-on to the GLFS to be completed as an annex to the main strategy document.
